Second Quarter Financial Results

Total revenues were RMB11.1 million (US\$1.5 million), representing a decrease of 89.5% from RMB105.4 million for the second quarter of 2022.

Financing income, loan facilitation income and other related income and transaction services fee and other related income decreased to nil as a result of the winding down of the loan book business.

Sales income and others increased to RMB11.1 million (US\$1.5 million), which was mostly attributable to incomes generated from the QD Food business attributable to its sales made prior to its winding-down and incomes generated from last-mile delivery business, compared with RMB8.8 million for the second quarter of 2022, which was mainly attributable to sales income generated by QD Food. We have wound down the QD Food business in second quarter of 2023.

Total operating costs and expenses decreased to RMB106.7 million (US\$14.7 million) from RMB135.9 million for the second quarter of 2022.

Cost of revenues decreased by 69.1% to RMB12.7 million (US\$1.7 million) from RMB41.1 million for the second quarter of 2022, primarily due to the winding down of the QD Food business and loan book business, partially offset by cost from last-mile delivery business.

Sales and marketing expenses decreased to nil as a result of the winding down of the loan book business and QD Food business.

General and administrative expenses increased by 87.9% to RMB65.4 million (US\$9.0 million) from RMB34.8 million for the second quarter of 2022, primarily due to the increase in professional services fees from last-mile delivery business.

Research and development expenses decreased by 47.3% to RMB9.9 million (US\$1.4 million) from RMB18.8 million for the second quarter of 2022, as a result of the decrease in staff head count, which led to a corresponding decrease in staff salaries and a decrease in third-party service fees.

Expected credit loss for receivables and other assets was RMB17.3 million (US\$2.4 million) as compared to a gain of RMB28.7 million for the second quarter of 2022, primarily due to credit loss for other assets related to the businesses the Company historically operated.

Loss from operations was RMB94.1 million (US\$13.0 million), compared to RMB29.4 million for the second quarter of 2022.

Interest and investment income, *net* increased by 47.8% to RMB6.8 million (US\$0.9 million) from RMB4.6 million for the second quarter of 2022,

mainly due to loss from investments of Secoo recorded in the second quarter of 2022 which did not appear in the second quarter of 2023.

Gain on derivative instrument was RMB10.4 million (US\$1.4 million), compared to a loss of RMB34.7 million for the second quarter of 2022, primarily due to the increase in quoted price of the underlying equity securities relating to the derivative instruments we held.

Net loss attributable to Qudian's shareholders was RMB76.9 million (US\$10.6 million). Net loss per diluted ADS was RMB0.34 (US\$0.05). Non-GAAP net loss attributable to Qudian's shareholders was RMB75.5 million (US\$10.4 million). Non-GAAP net loss per diluted ADS was RMB0.34 (US\$0.05).

For the second quarter of 2023, net cash provided by operating activities was RMB34.8 million (US\$4.8 million), mainly due to the interest income from the Company's short-term investments. Net cash provided by investing activities was RMB115.2 million (US\$15.9 million), mainly due to the net proceeds from the redemption of short-term investments. Net cash used in financing activities was RMB186.2 million (US\$25.7 million), mainly due to the repayment of short-term borrowings and repurchase of ordinary shares.

Use of Non-GAAP Financial Measures

We use Non-GAAP net income/loss attributable to Qudian's shareholders, a Non-GAAP financial measure, in evaluating our operating results and for financial and operational decision-making purposes. We believe that Non-GAAP net income/loss attributable to Qudian's shareholders helps identify underlying trends in our business by excluding the impact of share-based compensation expenses, which are non-cash charges. We believe that Non-GAAP net income/loss attributable to Qudian's shareholders provides useful information about our operating results, enhances the overall understanding of our past performance and future prospects and allows for greater visibility with respect to key metrics used by our management in its financial and operational decision-making.

Non-GAAP net income/loss attributable to Qudian's shareholders is not defined under U.S. GAAP and is not presented in accordance with U.S. GAAP. This Non-GAAP financial measure has limitations as an analytical tool, and when assessing our operating performance, cash flows or our liquidity, investors should not consider them in isolation, or as a substitute for net loss /income, cash flows provided by operating activities or other consolidated statements of operation and cash flow data prepared in accordance with U.S. GAAP.

We mitigate these limitations by reconciling the Non-GAAP financial

measure to the most comparable U.S. GAAP performance measure, all of which should be considered when evaluating our performance.

For more information on this Non-GAAP financial measure, please see the table captioned "Unaudited Reconciliation of GAAP and Non-GAAP Results" set forth at the end of this press release.
