“In the third quarter, we maintained a prudent approach to the operation of our cash credit business amid fast-evolving regulations regarding online lending,” said Mr. Min Luo, Founder, Chairman and Chief Executive Officer of Qudian. “We also remained focused on protecting our net assets, continuing to implement stringent credit approval standards in order to navigate the dynamic operating environment. Our loan book business generated total transaction value of RMB5.0 billion during the period, representing an increase of 19% from the second quarter, which was in line with our expectation.”

“Nevertheless, we are encouraged to see meaningful improvement across our delinquency metrics compared to the first half of this year, a validation of the effective execution of our operational strategy. Our overall D1 delinquency rate<sup>[4]</sup> declined to approximately 13% at the end of November. Looking ahead, we plan to maintain a thoughtful approach to our loan business operation in order to make further improvements to our asset quality,” Mr. Luo concluded.

“In light of macroeconomic and overall credit cycle uncertainties throughout this year, we have been upholding stringent requirements for credit applications and approval process on our platform. In the meantime, we continued to make efforts to explore new business avenues and investment opportunities, including but not limited to early childhood education.” said Ms. Sissi Zhu, Vice President of Investor Relations of Qudian.

[4] “D1 delinquency rate” is defined as (i) the total amount of principal and financing service fees that became overdue as of a specified date, divided by (ii) the total amount of principal and financing services fees that was due for repayment as of such date, in each case with respect to our loan book business and transaction services business.

### Third Quarter Financial Results

**Total revenues** were RMB849.4 million (US\$125.1 million), representing a decrease of 67.2% from RMB2,590.9 million for the third quarter of 2019.

**Financing income** totaled RMB487.3 million (US\$71.8 million), representing a decrease of 38.9% from RMB797.9 million for the third quarter of 2019, as a result of a decrease in average on-balance sheet loan balance.

**Loan facilitation income and other related income** decreased by 69.6% to RMB177.2 million (US\$26.1 million) from RMB583.3 million for the third quarter of 2019, as a result of the reduction of transaction volume of off-balance sheet loans during this quarter, partially offset by reclassification of guarantee income in accordance with ASC326.

**Transaction services fee and other related income** decreased to RMB6.6 million (US\$1.0 million) from RMB993.3 million for the third quarter of 2019, mainly as a result of a substantial decrease in the transaction amounts of open platform.

**Sales income** increased to RMB139.0 million (US\$20.5 million) from RMB135.5 million for the third quarter of 2019, mainly due to the launch of the Wanlimu e-commerce platform, partially offset by the reduced sales income from the Dabai Auto business.

**Sales commission fee** decreased by 74.1% to RMB18.1 million (US\$2.7 million) from RMB69.9 million for the third quarter of 2019, due to a decrease in the amounts of merchandise credit transactions.

**Total operating costs and expenses** decreased by 92.9% to RMB100.0 million (US\$14.7 million) from RMB1,400.8 million for the third quarter of 2019.

**Cost of revenues** decreased by 3.7% to RMB198.8 million (US\$29.3 million) from RMB206.3 million for the third quarter of 2019, primarily due to a decrease in lending related costs, partially offset by an increase in cost of goods sold related to the Wanlimu e-commerce platform.

**Sales and marketing expenses** decreased by 1.1% to RMB64.8 million (US\$9.5 million) from RMB65.5 million for the third quarter of 2019.

**General and administrative expenses** decreased by 10.4% to RMB58.3 million (US\$8.6 million) from RMB65.1 million for the third quarter of 2019, as a result of reduced share-based compensation expenses.

**Research and development expenses** increased by 15.9% to RMB51.1 million (US\$7.5 million) from RMB44.1 million for the third quarter of 2019, as a result of an increase in staff salary.

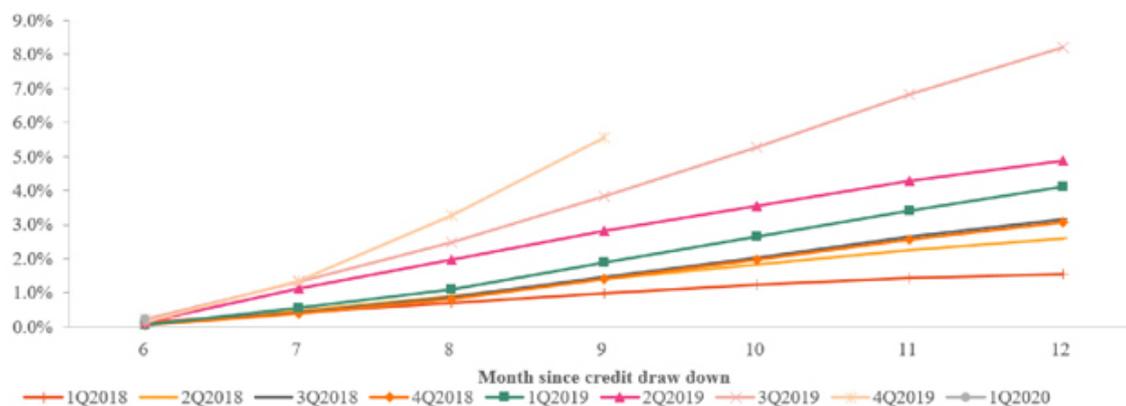

**Provision for receivables and other assets** decreased by 87.1% to RMB89.5 million (US\$13.2 million) from RMB691.1 million for the third quarter of 2019. The decrease was primarily due to a decrease in past-due on-balance sheet outstanding principal receivables compared to the third quarter of 2019.

As of September 30, 2020, the total balance of outstanding principal and financing service fee receivables for on-balance sheet transactions for which any installment payment was more than 30 calendar days past due was RMB729.8 million (US\$107.5 million), and the balance of allowance for principal and financing service fee receivables at the end of the period was RMB1,409.5 million (US\$207.6 million), indicating M1+ Delinquency Coverage Ratio of 1.9x.

The following charts display the “vintage charge-off rate.” Total potential receivables at risk vintage charge-off rate refers to, with respect to on- and off-balance sheet transactions facilitated under the loan book business during a specified time period, the total potential outstanding principal balance of the transactions that are delinquent for more than 180 days up to twelve months after origination, divided by the total initial principal of the transactions facilitated in such vintage. **Use of Non-GAAP Financial Measures**

We use adjusted net income/loss, a Non-GAAP financial measure, in evaluating our operating results and for financial and operational decision-making purposes. We believe that adjusted net income/loss helps identify underlying trends in our business by excluding the impact of share-based compensation expenses, which are non-cash charges, and convertible bonds buyback income. We believe that adjusted net income/loss provides useful information about our operating results, enhances the overall understanding of our past performance and future prospects and allows for greater visibility with respect to key metrics used by our management in its financial and operational decision-making.

Adjusted net income/loss is not defined under U.S. GAAP and are not presented in accordance with U.S. GAAP. This Non-GAAP financial measure has limitations as analytical tools, and when assessing our operating performance, cash flows or our liquidity, investors should not consider them in isolation, or as a substitute for net loss / income, cash flows provided by operating activities or other consolidated statements of operation and cash flow data prepared in accordance with U.S. GAAP.

We mitigate these limitations by reconciling the Non-GAAP financial measure to the most comparable U.S. GAAP performance measure, all of which should be considered when evaluating our performance.

For more information on this Non-GAAP financial measure, please see the table captioned “Unaudited Reconciliation of GAAP and Non-GAAP Results” set forth at the end of this press release.
