"During the first quarter of 2022, we maintained our stringent approach toward our cash credit business amid the complex macro-environment, funding all transactions by our on-balance sheet capital," said Mr. Min Luo, Founder, Chairman and Chief Executive Officer of Qudian. "Furthermore, our new ready-to-cook meals business, QD Food, has made steady progress since it launched in March 2022 in Guangdong province. We expect to expand its footprint across the nation and will provide more details on the development of this business as we continue to build it. Moving forward, we will maintain our prudent operating strategy for the cash credit business, focus on advancing our ready-to-cook food business and strive to create new engines for sustainable development."

"Driven by our consistent efforts to control credit risk, our asset quality has remained stable, evidenced by the D1 delinquency rate^[4] maintaining a steady level at around 5% as of the end of May 2022. In parallel with our efforts to reinforce the health of our balance sheet, we keep persevering with safeguarding the interests of our stakeholders. We will continue implementing our share repurchase program, reflecting our confidence in the robustness of our financial position. As always, we are committed to driving sustainable value for all of our stakeholders in the long run," said Ms. Sissi Zhu, Vice President of Investor Relations of Qudian.

[4] "D1 delinquency rate" is defined as (i) the total amount of principal and financing service fees that became overdue as of a specified date, divided by (ii) the total amount of principal and financing services fees that was due for repayment as of such date, in each case with respect to our loan book business.

First Quarter Financial Results

Total revenues were RMB201.8 million (US\$31.8 million), representing a decrease of 60.9% from RMB515.7 million for the first quarter of 2021.

Financing income totaled RMB177.9 million (US\$28.1 million), representing a decrease of 50.8% from RMB361.8 million for the first quarter of 2021, as a result of the decrease in the average on-balance sheet loan balance.

Loan facilitation income and other related income decreased by 96.1% to RMB0.5 million (US\$0.1 million) from RMB12.2 million for the first quarter of 2021, as a result of the reduction in transaction volume of off-balance sheet loans during this quarter.

Transaction services fee and other related income decreased to RMB2.0 million (US\$0.3 million) from RMB50.6 million for the first quarter of 2021, mainly as a result of the winding down of the transaction service business.

Sales income and others decreased to RMB4.1 million (US\$0.7 million) from RMB62.5 million for the first quarter of 2021, mainly due to the decrease in sales related to the Wanlimu e-commerce platform, which we are in the process of winding down.

Total operating costs and expenses increased to RMB285.5 million (US\$45.0 million) from RMB63.3 million for the first quarter of 2021.

Cost of revenues decreased by 64.7% to RMB32.1 million (US\$5.1 million) from RMB91.0 million for the first quarter of 2021, primarily due to the decrease in cost of goods sold related to the Wanlimu e-commerce platform.

Sales and marketing expenses decreased by 38.5% to RMB23.1 million (US\$3.6 million) from RMB37.6 million for the first quarter of 2021, primarily due to the decrease in marketing expenses related to the Wanlimu e-commerce platform.

General and administrative expenses increased by 77.6% to RMB118.4 million (US\$18.7 million) from RMB66.7 million for the first quarter of 2021, primarily due to the increase in the milestone payments relating to construction contracts for the WLM Kids business which were signed in 2021. We are in the process of downsizing the WLM Kids business.

Research and development expenses decreased by 50.0% to RMB19.6 million (US\$3.1 million) from RMB39.2 million for the first quarter of 2021, as a result of the decrease in staff salaries.

Provision for receivables and other assets was RMB11.9 million (US\$1.9 million) for the first quarter of 2022, mainly as a result of the impairment of current assets related to the WLM Kids business compared to a reversal of RMB106.8 million regarding on-balance sheet loan book business for the same period of last year.

Impairment loss from long-lived assets was RMB113.5 million (US\$17.9 million) for this quarter, as the results of the downsizing of the WLM Kids business.

As of March 31, 2022, the total balance of outstanding principal and financing service fee receivables for on-balance sheet transactions for which any installment payment was more than 30 calendar days past due was RMB154.7 million (US\$24.4 million), and the balance of allowance for principal and financing service fee receivables at the end of the period was RMB230.9 million (US\$36.4 million), indicating M1+ Delinquency Coverage Ratio of 1.5x.

Use of Non-GAAP Financial Measures

We use adjusted net income/loss, a Non-GAAP financial measure, in evaluating our operating results and for financial and operational decision-making purposes. We believe that adjusted net income/loss helps identify underlying trends in our business by excluding the impact of share-based

compensation expenses, which are non-cash charges, and convertible bonds buyback income, which is non-cash and non-recurring. We believe that adjusted net income/loss provides useful information about our operating results, enhances the overall understanding of our past performance and future prospects and allows for greater visibility with respect to key metrics used by our management in its financial and operational decision-making.

Adjusted net income/loss is not defined under U.S. GAAP and is not presented in accordance with U.S. GAAP. This Non-GAAP financial measure has limitations as analytical tools, and when assessing our operating performance, cash flows or our liquidity, investors should not consider them in isolation, or as a substitute for net loss / income, cash flows provided by operating activities or other consolidated statements of operation and cash flow data prepared in accordance with U.S. GAAP.

We mitigate these limitations by reconciling the Non-GAAP financial measure to the most comparable U.S. GAAP performance measure, all of which should be considered when evaluating our performance.

For more information on this Non-GAAP financial measure, please see the table captioned "Unaudited Reconciliation of GAAP and Non-GAAP Results" set forth at the end of this press release.
