#### **Recent Developments**

#### Loan Book Business:

After careful evaluation, the Company has decided to cease new credit offerings as of September 6, 2022. As of August 31, the Company's total outstanding loan balance from the loan book business was below RMB500 million, with an average loan tenure of approximately three months. The existing outstanding loans continue to generate revenue and will be collected in an orderly manner. As a result of this business adjustment, the Company expects its revenues to significantly decline in the coming quarters compared with the previous quarters.

#### QD Food Business

After assessing current market conditions, the Company has decided to streamline its QD Food business. With the streamlining in QD Food operations, the Company expects to incur employee severance costs, termination fees for business partners and inventory write offs, which may adversely affect its financial condition and results of operations.

The Company will continue to explore new business opportunities and protect long term value for its shareholders.

#### **Second Quarter Financial Results**

Total revenues were RMB105.4 million (US\$15.7 million), representing a decrease of 74.4% from RMB412.1 million for the second quarter of 2021.

*Financing income* totaled RMB66.2 million (US\$9.9 million), representing a decrease of 78.8% from RMB311.8 million for the second quarter of 2021, as a result of the decrease in the average on-balance sheet loan balance.

**Loan facilitation income and other related income** decreased by 47.6% to RMB6.6 million (US\$1.0 million) from RMB12.6 million for the second quarter of 2021, as a result of the reduction in transaction volume of off-balance sheet loans during this quarter.

*Transaction services fee and other related income* decreased to RMB6.5 million (US\$1.0 million) from RMB38.5 million for the second quarter of 2021, mainly as a result of the winding down of the transaction service business.

*Sales income and others* decreased to RMB8.8 million (US\$1.3 million), which was mainly attributable to sales income generated by QD Food, from RMB23.7 million for the second quarter of 2021, which was mainly attributable to sales generated by the Wanlimu e-commerce platform. We have wound down the Wanlimu e-commerce platform.

Total operating costs and expenses increased to RMB135.9 million (US\$20.3 million) from RMB89.3 million for the second quarter of 2021.

Cost of revenues decreased by 36.7% to RMB41.1 million (US\$6.1 million) from RMB64.9 million for the second quarter of 2022, primarily due to the decrease in cost of goods sold as a result of the wind-down of the Wanlimu e-commerce platform, partially offset by the cost of goods sold relating to QD Food.

*Sales and marketing expenses* increased by 82.6% to RMB53.2 million (US\$7.9 million) from RMB29.1 million for the second quarter of 2021, primarily due to the increase in marketing expenses related to QD Food.

*General and administrative expenses* decreased by 68.1% to RMB34.8 million (US\$5.2 million) from RMB109.1 million for the second quarter of 2021, primarily due to the downsizing of the WLM Kids business.

**Research and development expenses** decreased by 52.1% to RMB18.8 million (US\$2.8 million) from RMB39.2 million for the second quarter of 2021, as a result of the decrease in staff head count, which led to a corresponding decrease in staff salaries.

*Provision for receivables and other assets* was a reversal of RMB28.7 million (US\$4.3 million) for the second quarter of 2022, mainly due to the decrease in past-due on-balance sheet outstanding principal receivables compared to the second quarter of 2021

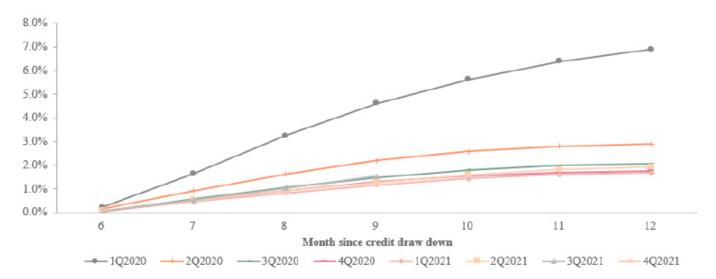

Impairment loss from long-lived assets was RMB45.5 million (US\$6.8 million) for this quarter, as a result of the downsizing of the WLM Kids business.

As of June 30, 2022, the total balance of outstanding principal and financing service fee receivables for on-balance sheet transactions for which any installment payment was more than 30 calendar days past due was RMB124.0 million (US\$18.5 million), and the balance of allowance for principal and financing service fee receivables at the end of the period was RMB147.2 million (US\$22.0 million), indicating M1+ Delinquency Coverage Ratio of 1.2x.

Such restricted cash is not available to fund the general liquidity needs of the Company.

#### **Use of Non-GAAP Financial Measures**

We use adjusted net income/loss, a Non-GAAP financial measure, in evaluating our operating results and for financial and operational decision-making purposes. We believe that adjusted net income/loss helps identify underlying trends in our business by excluding the impact of share-based compensation expenses, which are non-cash charges, and convertible bonds buyback income, which is non-cash and non-recurring. We believe that adjusted net income/loss provides useful information about our operating results, enhances the overall understanding of our past performance and future prospects and allows for greater visibility with respect to key metrics used by our management in its financial and operational decision-making.

Adjusted net income/loss is not defined under U.S. GAAP and is not presented in accordance with U.S. GAAP. This Non-GAAP financial measure has limitations as analytical tools, and when assessing our operating performance, cash flows or our liquidity, investors should not consider them in isolation, or as a substitute for net loss /income, cash flows provided by operating activities or other consolidated statements of operation and cash flow data prepared in accordance with U.S. GAAP.

We mitigate these limitations by reconciling the Non-GAAP financial measure to the most comparable U.S. GAAP performance measure, all of which should be considered when evaluating our performance.

For more information on this Non-GAAP financial measure, please see the table captioned "Unaudited Reconciliation of GAAP and Non-GAAP Results" set forth at the end of this press release.
